#### INTRODUCTION

#### Mahatma Gandhi Institute of Medical Sciences, Sevagram

### 'A Medical College with a Difference'

The Mahatma Gandhi Institute of Medical Sciences, Sevagram is India's first rural medical college. Nestled in the karmabhoomi of Mahatma Gandhi, in Sevagram, this Institute was founded by Dr Sushila Nayar in 1969. It is attached to Kasturba Hospital, which has the distinction of being the only hospital in the country which was started by the Father of the Nation himself.

In the spirit of its Founder, the Mahatma Gandhi Institute of Medical Sciences, Sevagram today is committed to the pursuit of professional excellence by evolving an integrated pattern of medical education and it seeks to provide accessible and affordable health care primarily to underprivileged rural communities.

#### **MGIMS: Quality Medical Education**

The institute strives to produce doctors of high clinical competence, professional attitudes and ethical behavior. The Institute believes that Gandhian values and principles are relevant even today and it displays a fierce commitment to advancement of medical education without losing the humane touch.

We, at MGIMS, are conscious of the fact that medical education needs to maintain the right balance in the eternal triangle of 'quality, quantity and equity'. In our perennial quest to attain the perfect blend, we never forget that these three arms are not in conflict, and equity cannot be kept in abeyance. The students at MGIMS are drawn from all parts of the country and come from all kinds of social backgrounds. Every effort is made to acquaint the medical student to the real rural India. Our approach to medical education with the spotlight on rural community oriented education makes our doctors sensitive to the felt needs of the people they would be serving in their future. Our students are expected to adhere to professional norms which include altruism, compassion, empathy, accountability, honesty and integrity.

#### Unique code of conduct

The students and staff of the Institute adhere to a unique code of conduct, where they are expected to wear hand-woven khadi, participate in shramdan and attend an all-religion prayer every Friday evening. Non-vegetarian food, alcohol and tobacco are taboo.

Soon after admission to the MBBS course, the students live in Gandhiji's Ashram for 15 days, where they are oriented to Gandhian ideology and learn the Gandhian way of life. Drawn from different geographical and cultural backgrounds of the country, this phase helps them get acquainted with each other and respect mutual differences.

#### **Departments and Disciplines**

The Institute offers degrees and diplomas in 20 postgraduate disciplines, 19 of which are presently recognized by the Medical Council of India and PhDs in Nine departments is recognized by Maharashtra University of Health Sciences, Nashik (MUHS). The Institute follows all the norms laid down by the Medical Council of India and by the affiliating University, Maharashtra University of Health Sciences, Nashik for quality medical education.

However, to achieve its specific objectives, it has made some curricular innovations which are unique and have stood the test of time now for many years.

The Institute boasts of a well equipped library which is a recognized resource library for HELLIS network in Western India. Students have access to computers and internet. Drawn from all parts of India, MGIMS has the services of committed, trained full time teachers and physicians, many of whom have won prestigious National and International awards.

#### **Community Orientation and Rural Service**

This institute was established to evolve a pattern of medical education to train doctors with a community focus. During the first year, students adopt families in a nearby village and live with the villagers for a fortnight in their surroundings. Here they survey the villagers, understand their social and health related problems and impart health education. The students are made responsible for the health care of the families allotted to them and they follow them up till the end of their medical training. They develop a bond with the villagers and this experience fills them with compassion and a sense of commitment towards serving poor rural communities.

Since 1991, the Institute has asked all its graduates to serve for two years in rural areas. 75 non-governmental organizations have joined hands with the institute to fulfill this dream. Young graduates are posted at these NGOs and provide services to the needy. This rural service is a mandatory criterion for applying for post-graduation in this Institute.

The Report of the Task Force on Medical Education of the National Rural Health Mission spells out the need to draw upon MGIMS Sevagram's initiatives and experience in curriculum innovation and rural placement of its graduates. It suggests launching a participatory exercise with MGIMS and other like-minded institutions, so that national guidelines can be formulated. Several such visionary and innovative education strategies which started from the Institute have now been adopted by the government.

#### Research

The focus of the Institute has been on community based medical research. Quality research has been the hallmark of this rural institute and the large number of funded projects awarded to the various departments is ample testimony to the potential of the researchers. We have consistently received funding from the Indian Council of Medical Research, Department of Science and Technology, Department of Biotechnology, WHO, UNICEF, USAID, Fogarty AIDS Research and Training Program, USA, Canadian Institute of Health Research, Population Health Research Institute, Canada, National Institutes of Health (NIH), National Heart Lung Blood Institute (NHLBI) and other such organizations.

Being located in Sevagram has never been a hurdle in acquiring either funds or facilities as the enthusiasm and the dedication of the faculty surpasses all other deterrents. Each year, the large numbers of national and international peer reviewed publications from this Institute provide evidence of excellence in research.

Over the last four decades, the MGIMS faculty has been striving hard to imbibe the philosophy which makes it pursue excellence in academics, healthcare and research, more than mundane needs and money. Today, MGIMS has impressive academic standards and excellent research facilities. In the 46 years of its existence, 2415 doctors have graduated from the hallowed premises of MGIMS. Our alumni, spread far and wide across the globe, continue to bring laurels to their Alma Mater.

#### **KASTURBA HOSPITAL**

#### **Rural Health Care**

The hospital primarily caters to the rural populace. Almost three-fourths of the patients who visit our hospital come from rural backgrounds. The patient load comes to us not only from Vidarbha in Maharashtra, but also from adjoining parts of Andhra Pradesh, Madhya Pradesh and Chhatisgarh. Kasturba Hospital is a rural institute but it does not lack in any of the modern health care amenities and is able to provide health services at affordable costs. Kasturba Hospital offers the benefits of modern technology with compassionate health care.

The Hospital has state-of-the-art intensive care units in Medicine, Accident & Emergency, Surgery, Obstetrics and Gynecology and Pediatrics which provide excellent critical care. A well equipped hemodialysis unit is available for patients of renal failure. The Sri Satya Sai Accident and Emergency Unit provides succour to patients of trauma. The Institute has the only Blood Component Unit in the district which provides components not only to patients in Kasturba hospital, but also to adjoining private hospitals. Facilities for MRI, CT Scan and Mammography are available. The Institute also has a Linear accelerator, digital subtraction angiography and brachytherapy to its armamentarium, which is used for treatment of cancer patients. A computerized radiotherapy system has also been procured. The Alcohol and Drug De-addiction centre seeks to rehabilitate patients who are addicted to drugs and alcohol. The Pathology, Microbiology and Biochemistry laboratories have in-house facilities to conduct a battery of diagnostic tests. All departments of the hospital are connected by an advanced Hospital Information System. A neurosurgery department has also been started from the year 2009. Joint replacements, spine surgeries are routinely performed.

The Govt. of Maharashtra has initiated Rajiv Gandhi Jeevandayee Arogya Yojana (RGJAY) for improving the access to healthcare for poor patients. This scheme has commenced in Kasturba Hospital since 22nd November 2013.

#### **Community Service and Health Care**

The Institute's commitment to the community is well known. Community-based programmes have been consistently implemented to enhance health care services. The Department of Community Medicine has adopted three primary health centres and developed a model of decentralized healthcare delivery at village level through Community-based Organizations and the Panchayati Raj Institutions. It has formed 276 Self-help groups, 12 Kisan Vikas Manch and 90 Kishori Panchayats in the adopted villages. Through innovative strategies, family life education is provided to adolescent girls in all the program villages. The Department of Community Medicine was given the Global Safe Motherhood Award in 2001 by the White Ribbon Alliance for Safe Motherhood and Global Council, USA in recognition of its Suraksha Aichi campaign in nearby villages. WHO has designated the Dr Sushila Nayar School of Public Health at MGIMS as a WHO Collaborating Centre for Research and Training in Community Based Maternal, Newborn and Child Health.

The health insurance scheme of the institute has won several accolades as it seeks to create health consciousness in the community. A villager can insure himself and his family by paying Rs 350 a year and in return he gets 50% subsidy in OPD and indoor bills. In 15, 17755 families (81069 members) around Sevagram volunteered to obtain health insurance from this hospital. Similarly 40 villages were totally insured and 75281 rural people were insured under this scheme. No other medical institution has achieved this kind of coverage so consistently over the years and at so affordable a rate.

#### **AWARDS AND RECOGNITION**

The National Rural Health Mission has lauded the 'Positive contribution of MGIMS in maternal health activities conducted in partnership with the Govt. of India'. In 2006, the Institute was awarded the Mahaveer Award for Excellence in the Sphere of Education and Medicine by

the Hon'ble President of India. The Institute was bestowed with the National Award for Innovative Hospital & Health Care Management by the Bombay Management Association in 1990. MGIMS has been included among the top 20 best Medical Colleges of the country by the INDIA TODAY survey in May 2008. A survey conducted by the National Medical Journal of India in 1996 ranked the Institute as second in research in Maharashtra. According to a survey (July 2014) by Outlook magazine, it has been ranked 17th in the list of top 25 medical schools of the country.

# The Institute has been accredited grade A by NAAC in recognition of its academic, research & health care activities.

Over the last four and half decades, the MGIMS faculty has been striving hard to imbibe the philosophy which makes it pursue excellence in academics, healthcare and research, more than mundane needs and money; and to maintain excellence in quality. Today, MGIMS has impressive academic standards and excellent research facilities. In the 46years of its existence, 2415 doctors have graduated from the hallowed premises of MGIMS. Our alumni, spread far and wide across the globe, continue to bring laurels to their Alma Mater.

Any Institute is recognized not by the pillars of its building, but by its faculty and their achievements. Drawn from all parts of India, MGIMS can boast of eminent full time teachers and physicians, many of whom have won prestigious National and International awards. Five of our faculty have received the Dr. B.C. Roy National award. While our Former Director, Dr. Sushila Nayar, was the recipient of the highest award of Medical Person cum statesman, Ex Deans Dr. J.S. Mathur and Dr. P. Narang received the award in the category of eminent medical teacher, Dr. B.C. Harinath for developing the specialty and Dr. P.B. Behere in the category of 'Socio- Medical Relief'. Three of the teachers, Dr. S. Chhabra, Dr. B.S. Garg and Dr. MVR Reddy have received best teacher awards from Maharashtra University of Health Sciences, Nashik for the years 2006, 2007 and 2011 respectively. Dr. S. Chhabra has also received Distinguished Community Services Award for emergency obstetric care from International Federation of Gynaecology & Obstetrics.

#### **CODE OF CONDUCT**

- 1 The general control of students is vested with the Dean.
- 2 Students admitted to MGIMS are expected to Exhibit high standards of academic interest and responsible behavior, befitting professional level of maturity.
- 3 Students admitted to MGIMS are expected to follow the code of conduct as follows i) wearing khadi clothes ii) consume vegetarian meals iii) eschew smoking, drinking and other intoxicants iv) participate in community prayer, shramdan and such other activities as may be prescribed from time to time v) must be free from any prejudice regarding, caste, creed or untouchability vi) girl students must tie their hair and boy students should have tidy hair when at work in the college and hospital.
- 4 Residing in the hostels of the Institute is compulsory for all students.
- 5 Students after admission to the Institute are given an Orientation Training Course for a fortnight in Sevagram Ashram for getting sensitized to Gandhian ideology. If it is found that they are unable to adjust themselves to the environment, their admission may be cancelled.
- 6 Attendance in the Social Service camp, whenever it is held is essential, failing which the student may not be allowed to appear in the University Exam.
- 7 Students who do not maintain a satisfactory standard in academics or in the observance of code of conduct or discipline shall neither be allowed to hold office in extracurricular bodies or be eligible for scholarship or given any other assistance.
- 8 Students should maintain 75% attendance with minimum 80% in practical to be eligible to appear in the university examination.
- 9 Permission must be taken from the Dean for any leave or absence from classes or to go out of station. All students must report to the warden before leaving and on return from leave. In case of illness during leave a medical certificate must be sent immediately.
- 10 All illness should be reported to the Warden at the earliest.
- 11 Students must pay for all damages caused by them to books and property of the Institute.
- 12 Fees shall be paid on the date notified by the Dean's office. Mess fees shall be paid in advance for 6 months with term fee. Balance if any, shall be refunded at the time of leaving.
- Ragging in any form is absolutely forbidden and as per the provisions of Maharashtra Act XXXIII known as "Maharashtra Prohibition of ragging Act of 1999", students indulging in ragging can be punished under the Act resulting in suspension, and even expulsion from the Institute and imprisonment.

#### Prevention of Ragging:

RAGGING IS A COGNIZABLE OFFENCE AND IS FORBIDDEN IN ANY FORM. ANYONE INDULGING IN RAGGING WILL BE PUNISHED UNDER THE ACT RESULTING IN SUSPENSION, EXPULSION FROM THE INSTITUTE AND IMPRISONMENT. THE PUNISHMENT FOR RAGGING WILL BE MENTIONED IN THE COLLEGE LEAVING CERTIFICATE.

#### The Supreme Court has defined the ragging as under:

Clause No.6: Any disorderly conduct whether by words spoken or written or by an act which has the effect of teasing treating or handling with rudeness any other student, indulging in rowdy or in disciplined activities which cause or are likely to cause annoyance, hardship or psychological harm or to raise fear or apprehension thereof in a fresher or a junior student or asking the students to do any act or perform something which such student will not do in the ordinary course and which has the effect of causing or generating a sense of shame or embarrassment so as to adversely affect the physique or psyche of a fresher or a junior student. The cause of indulging in ragging is deriving a sadistic pleasure or showing off, power, authority or superiority by the seniors over their juniors or fresher.

#### Punishable ingredients of Ragging
